you're a part of it!*

Aqueus Amend Plus

A new class of soil amendment that helps absorption in both the rhizosphere and the phyllosphere that stimulates respiration processes and improves biodigestion. Climate extremes that affect plant health and yields are real, and this product is that game changer!

Powerblend

Custom blended complex of micronutrients. Derived from Soy Protein Hydrolysate, Magnesium Acetate, Boron Ethanolamine, Ferrous Sulfate, Manganese Acetate, Sodium Molybdate and Zinc Acetate.

Iron Max 15-0-0 6%

A chelated iron and manganese fertilizer with Up Take Enhancement (UTE) technology. Iron Max promotes fast green up and good green color from chlorophyll synthesis.

Improve amino acid production, promote plant hormone responses and stimulate plant defenses like never before!

PARTNERING FOR SUCCESS!

AQUEUS AMEND PLUS

A unique soil amendment influencing plant health attributes unlike other amendments. This amendment is like a personal fitness trainer for your plants making natural abilities far more efficient. As an added soil amendment it improves soil structure.

POWERBLEND

Used to promote healthy vigorous leaf tissue with proper color improving overall flowering and fruiting yields for any of your consumable production plants or ornamental flowering trees and shrubs.

IRON MAX

This 15-0-0 6% UTE with chelated iron and manganese will serve well with soil buffering capabilities while also ensuring your trees and shrubs have more energy.

CHLOROTIC TREE FERTILIZATION

MSRP \$3.00/Gallon* Applied = \$2.50 Profit/Gallon
